RELEASED IN PART  
B6

Alex,

I'm working on an update cable as we speak. We hope to have it out sometime this week.

The Attorney General (Procuraduria) sent 3 letters to us; one asking for help in analyzing some video tape in their possession. LEGAT is assisting them with that. They also asked for information on the type of cluster bomb used, and we suggested Jane's Alminac. Third, they asked us to help locate [redacted] B6  
[redacted] 3 AMCITS they say were aboard the B6  
Skymaster which was in the area at the time of the bombing. CONS had a B6  
passport issued here to a [redacted] but no record of the B6  
others. Some stories have hit the press saying that the Embassy is trying to locate them so they can testify for the GOC, but I'm not aware of any such efforts.

RE the investigation, 3 people are involved in an investigation by the military judiciary and the Procuraduria has charged 4. The cable will have all the information. Hope this helps for now.

Alex
